## HOW WAS THE **IAFPA** FORMED?

The **IAFPA** was formed in January, 2000 by a group of likeminded individuals representing airport, domestic, and industry fire professionals. It was formed to establish an *International* organisation to represent the interests and concerns of the worldwide aviation fire protection community.

# International Aviation Fire Protection Association

## MISSION STATEMENT

The *International Aviation Fire Protection Association (IAFPA)* is a non-profit organisation formed to facilitate and promote the sharing of information and learning, to enhance fire, safety & security for the international aviation community.

# International Aviation Fire Protection Association

## WHO DO WE REPRESENT ?

*IAFPA* represents any and all emergency services and other airport fire safety and aviation safety personnel who have an interest in aircraft rescue fire fighting, airport fire safety, and air passenger fire safety.

- Domestic
- Industrial
- Emergency Services Personnel
- Emergency Planners
- Airport Management
- Airport Safety & Fire Safety Personnel
- Air Passenger Safety Groups
- Similar Minded Organisations

# International Aviation Fire Protection Association

## WHAT WE ARE NOT!

*IAFPA* **IS NOT** a Labour Union, nor does it represent its membership in any collective bargaining or wage negotiations. It does not provide any representation for matters related to disciplinary matters or other matters related to other organisational interagency matters.

However

*IAFPA* provides its members a means of networking with other members to make comparisons of the many facets which makes up the Airport Rescue & Firefighting Services.

# International Aviation Fire Protection Association

## WHY WAS THE **IAFPA** ESTABLISHED?

BECAUSE AN AIR CRASH CAN OCCUR  
**ANYTIME** AND **ANYWHERE** !

# International Aviation Fire Protection Association

## WHY IS THAT IMPORTANT?

BECAUSE WE CAN LEARN THE LESSONS -  
BOTH THE GOOD AND BAD POINTS WHICH  
PREPARES US FOR SIMILAR EVENTUALITIES

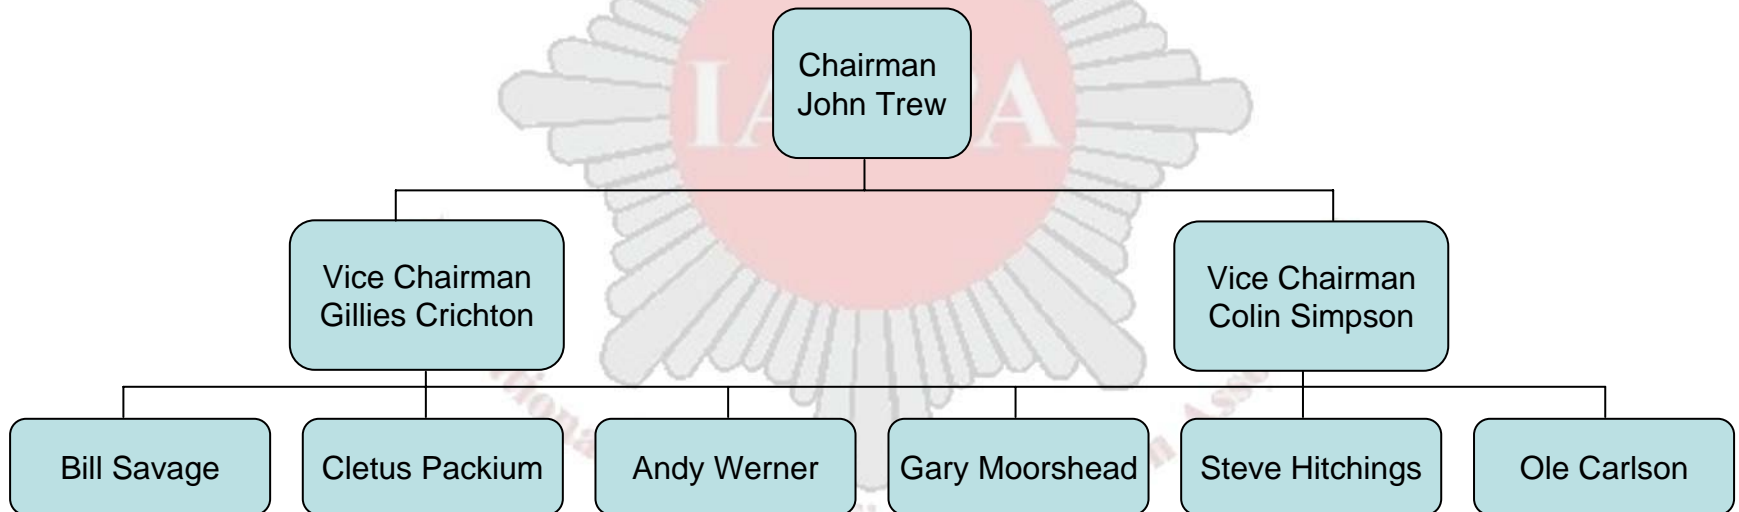

# International Aviation Fire Protection Association

## WHAT IS THE STRUCTURE?

### Executive Group

# International Aviation Fire Protection Association

## WHAT ARE THE *IAFPA's* Objectives

- Improve Aircraft Rescue Fire Fighting Techniques & Procedures.
- Improve Airport Fire Protection Planning & Procedures.
- Improve Aircraft Passenger Fire Safety.
- Improve worldwide communications avenues between Airport, Domestic Fire & Emergency Service organisations for exchange of information and resources and for aircraft accident disaster planning.

# International Aviation Fire Protection Association

## HOW WILL THE **IAFPA** MEET THESE GOALS?

➤ Work with other similar worldwide organisations with common goals, such as air passenger safety organisations, aviation regulatory agencies, and airport, domestic and military emergency services organisations around the world.

➤ Provide a global communications network so that other organisations and individuals can network and share inform

➤ Hold worldwide conferences and seminars so that relevant and timely information on new developments in aircraft fire fighting, incident management, and examination of recent incidents.

# International Aviation Fire Protection Association

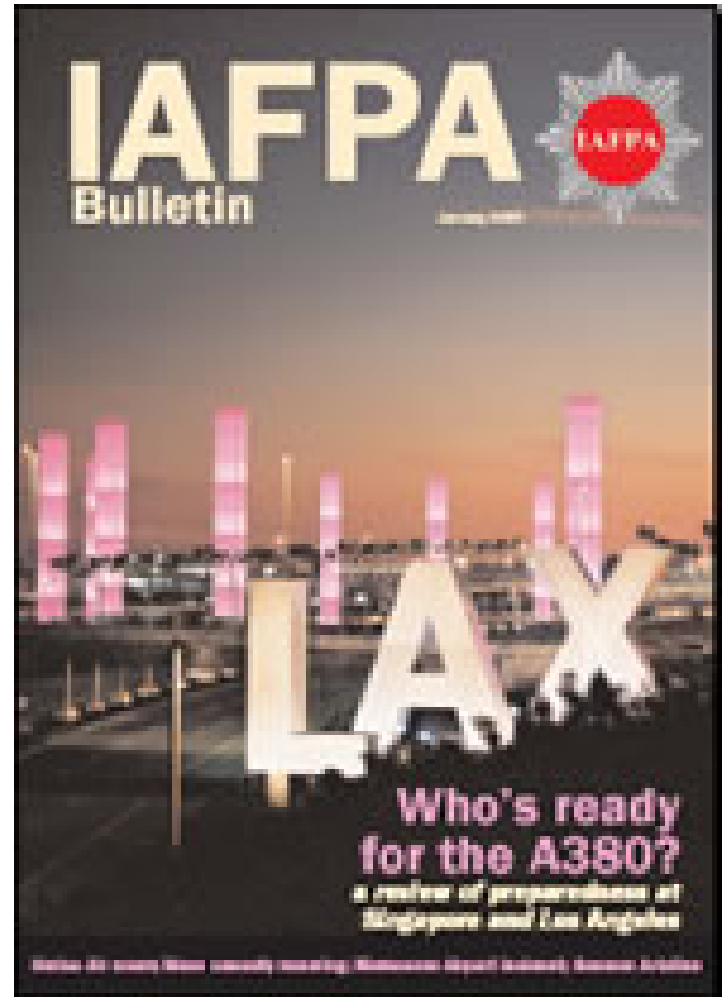

- **Provide expertise and information to regulatory agencies and international aviation safety organisations to further the cause of the need for improved standards of airport fire protection, training, and aircraft fire fighting equipment.**
- **By providing a fraternal and social organisation where everyone holds an equal status, regardless of rank or title**
- **Our annual G7 Fire Chiefs meeting have already proven to be setting global strategy for aviation firefighting**
  - **Hosting a newly formed regulators meeting as part of the annual IAFPA conference**

# International Aviation Fire Protection Association

## HOW DOES THE **IAFPA** COMMUNICATE?

- Via interactive internet media communications, such as our official **IAFPA BULLETIN** and other announcements, and through our internet web site.
- Web site – members area
  - Picture library
  - Presentations
  - News reports
  - Firenet
